COPY OF PAPERS  
ORIGINALLY FILED

All of the patents and publications listed above have been identified in an

International Search Report issued in connection with applicant's corresponding

International application (i.e., PCT/US00/09493), which was published as WIPO Publication No. WO 00/61200 on October 19, 2000. With reference to the attached copy of the International Search Report, one can see that the International Examiner assigned a category "A" designation (i.e., a document defining the general state of the art which is not considered to be of particular relevance) to U.S. Patent No. 4,407,960 and International Patent Publication No. WO 98/52621, and a category "X" designation (i.e., a document of particular relevance to the present invention) to International Patent Publication No. WO 98/58683. In the foregoing circumstances, additional comments concerning the relevance of the foregoing patents and publications are considered unnecessary.

In order to facilitate the Examiner's citation of the patents and publications listed above, applicant's attorney has completed United States Patent and Trademark Office Form PTO-1449. The completed Form is attached hereto for the Examiner's convenience.

No fees are believed to be due in connection with the submittal of this Information Disclosure Statement. However, if any such fees are due, the Examiner is hereby authorized to charge them to Deposit Account No. 19-1218.

Respectfully submitted,

SELITTO, BEHR & KIM
